WASHINGTON C. H., OHIO. FRIDAY, MARCH 7, 1913

Ten Cents a Week

## ADMINISTRATION HAS BEGUN THE WORK IN HARD PAN TASK

### TACKLE TARIFF REVISION TODAY

Ways and Means Committeemen Begin Work In Earnest.

### WILL REPORT SIXTEEN BILLS

New England Democrats Reported Opposed to Cut in Rates on Manufactured Articles, While Reductions in Rates on Farm Products Will Be Resisted by Democrats From the West and North.

Washington, March 7.—Work was commenced in earnest today on the tariff revision program by the Democratic members of the ways and means committee.

The forthcoming revision will be embodied in 16 bills, 14 dealing with schedules of the present law, one bill for a free list and another carrying the administrative features of the proposed tariff. It is already apparent that in committee as well as in the house every one of these bills will be fought with great bitterness. The senate is Democratic and so is the president, and the Democratic house must proceed accordingly.

New England Democrats are opposed to cut in the rates on manufactured products that are understood to be contemplated by the majority of the committee. Democrats from the west and north balk at proposals that have been made for substantial reductions in rates on farm products.

It is known that an effort will be made at an early meeting of the committee to reverse the vote heretofore taken by which the committee declared its purpose to adhere to the tariff plank of the Baltimore platform. This plank in part declares that products sold cheaper abroad than in this country shall be placed on the free list. Chairman Underwood does not believe this plan should be taken at its face value. He fears that if it is it may be difficult to proceed with the revision along the lines tentatively laid down. However, on a test vote on this proposition, the committee a few weeks ago decided that steel rails should be placed on the free list, it having been brought out in the hearings that rails are frequently sold in Europe at prices lower than those prevailing in the United States.

President Wilson will be strongly urged to ask congress to limit its work at the special session to the tariff revision bills.

## Blizzard Was Raging When Ship Came Up

### "NIAGARA" RAISED

Was the Ship Which Turned Defeat Into Victory For Perry.

Erie, Pa., March 7.—Working in one of the worst blizzards of the winter, a local contractor and his gang raised the Niagara, the ship which turned defeat into victory for Oliver Hazard Perry in the battle of Lake Erie, Sept. 10, 1813. Within five days it is expected that the battered craft will be raised and propelled to the shore on pontoons. From there she will be floated to a local shipbuilding yard, where she will be overhauled preparatory to her last cruise, along the Great Lake ports from Erie to Duluth, during the Perry centennial celebration next summer.

Blind Man Clubs Footpad. Columbus, O., March 7.—John Ganey, blind newsman, who sells papers in the streets, rapped a footpad over head with a heavy cane when the thug ordered him to stand and deliver. The holdup man escaped.

### WINNING FRIENDS FOR WOMAN SUFFRAGE

While the suffragists of Great Britain are devoting their efforts to arson, bomb-throwing and window-smashing, their sisters in the United States are working in a quieter but perhaps more effective way to win friends for the "cause." The photograph shows a number of well-known Washington women distributing handbills and arguments in the streets.

## WILL SIMPLIFY THE WORK OF CHOOSING MEN

### PROVIDES FOR SHORT BALLOT

Young Resolution Is Rushed Through the Ohio Senate.

### TWO STATE OFFICES ELECTIVE

Wet and Dry Forces Each Score a Point in the Battle in the Senate On the Liquor License Bill—Eight-Hour Day For Women Proposal Amended in Committee—Doings of the Solons.

Columbus, O., March 7.—The Young resolution, providing for a short state, county and township ballot by constitutional amendment, was passed by the senate. This measure was introduced in the house early in the session, but and ain in a committee's hands. It was finally rushed through the senate. All state offices below lieutenant governor would be appointive if the resolution is accepted and the amendment later adopted by the people.

Approval on second reading was given by the house to the Venus and Kennedy bills to make the building and loan association bureau, now a part of the insurance department, a separate state department and self-supporting. The bills increase the salary of State Inspector James A. Devine from \$3,000 to \$4,800 and raise the annual inspection fees paid by associations from \$5 to \$20. Last year the bureau expended \$32,000 and collected \$8,600. The estimated income under the bill is \$34,000.

Abolition of the time-honored right of property-holders' consent to the use of a street for street railroad purposes was approved by the house. Scarcely any opposition was manifested to the Bigelow bill, which seeks to bring about this radical change, and it was passed on second reading. It is now ready for final passage or defeat in the house. It has not been considered by senate.

(Continued on Page Eight.)

## CARRY THE CASE TO HIGH POWERS OF NATION

### SUFFRAGISTS BEFORE SENATE COMMITTEE

Tell of Injuries Perpetrated By Washington Police.

Washington, March 7.—Testimony in regard to the indignities perpetrated upon suffragists in their parade here last Monday was given before the senate committee, which is authorized to investigate the conduct of the Washington police department on that occasion. Among the witnesses heard were Senator Poindexter of Washington, Miss Julie C. Lathrop, chief of the children's bureau in Washington; Rear Admiral W. K. Van Reyken, retired, and Mrs. Fisher, wife of ex-Secretary Walter Fisher of the interior department. Richard Sylvester, superintendent of police, was not present, but he will be heard Saturday. Charges have been lodged against Superintendent of Police Sylvester and John S. Johnson of the District of Columbia and Assistant Secretary of War Oliver.

Miss Patricia Street of Australia exhibited her cloak, showing a great rent made by a policeman because she appealed to him to protect an old woman who was being roughly handled by a drunken man.

Testimony of the witnesses tended to show that the patrolmen failed to display any disposition to preserve order.

(Continued on Page Eight.)

### INAUGURAL PARADE

Head of Pageant as It Came Down Pennsylvania Avenue.

© by American Press Association.

## Booming Of Big Guns Continued Through All

### WINS FIRST PLACE

Battleship Delaware Leads Other Warships in Target Practice.

Washington, March 7.—The battleship Delaware has won first place in elementary target practice with guns and torpedoes during the present winter, according to announcement made at the navy department. The battleship Florida took second place, with the other ships standing as follows: Idaho, Michigan, North Dakota, Connecticut, Louisiana, Missouri, New Hampshire, Utah, Rhode Island, Virginia, Minnesota, South Dakota, New Jersey, Kansas, Maryland, Colorado, Ohio, South Carolina, Nebraska, Saratoga, California, Vermont and Georgia.

### JOHN H. MARBLE

New Member of Interstate Commission Succeeds Lane.

## HOOSIER LEADER IN SENATE GETS BUSY AT WORK

### STEERING COMMITTEE SELECTED BY KERN

O'd Guard Represented By Only Two of Nine Members.

Washington, March 7.—That the progressive faction of the Democratic party will control the senate reorganization was made manifest when Senator Kern of Indiana, the new caucus chairman, named a steering committee which will act also as a committee on committees. This committee consists of nine senators, of which Mr. Kern is the ex-officio chairman. Seven of the nine are progressives and the majority of the entire committee has served for a comparatively short time only in the senate.

The old guard is represented on the committee by only two senators, Martin of Virginia and Clarke of Arkansas. The seven progressives are Kern, Chamberlain of Oregon, Owen of Oklahoma, O'Gorman of New York, Smith of Georgia, Lea of Tennessee and Thomas of Colorado. Most of these men have heretofore been classed as Bryan Democrats, and all are in sympathy with the policies of President Wilson.

When the steering committee met it was confronted with the problem of getting around the seniority rule without offending the older senators. It is believed that the rule of seniority will be respected in most instances in the committee reorganization, insofar as chairmanships are concerned, but in every case the steering committee it is said, will take pains to see that the progressive element is in control of the committee.

### WILSON FELICITATES THE CZAR OF RUSSIA.

Washington, March 7.—His first message of felicitation to a fellow ruler of a nation was sent by President Wilson, congratulating the Czar of Russia on the three hundredth anniversary of the accession of the Romanoffs to the imperial throne in Russia. President Wilson said: "I extend to your majesty cordial felicitations and the earnest hope of the government of the United States that the bond of friendship which now unites the two nations may ever strengthen and continue."

## NOTE SOUNDED IN FIRST ACTION

### QUOTES FROM FAMOUS SPEECH

Premier Bryan Gives His Views On Foreign Policy.

### STILL STOUT ANTI-IMPERIALIST

Refers to the Closing Words of His Indianapolis Address Opening the 1900 Campaign—In Hearty Accord, He Says, With the President In Promoting International Peace—Alvey Adee to Hold Over.

Washington, March 7.—That the William J. Bryan who is now secretary of state is the same William J. Bryan who in 1900 stumped the country in his campaign of "anti-imperialism," was demonstrated in the first formal and official statement given out by President Wilson's premier. Mr. Bryan's statement was as follows:

"I do not care to speak of our foreign relations or of our nation's position in relation to any particular nation or question, but my views on our national position are expressed in the closing words of the speech which I delivered at Indianapolis Aug. 8, 1900. The words to which I refer show that I am in hearty accord with President Wilson in his desire to promote international peace and good will."

In this speech Mr. Bryan says in closing:

"I can conceive of a national destiny surpassing the glories of the present and the past—a destiny which meets the responsibilities of today and measures up to the possibilities of the future. Behold a republic resting securely upon the foundation of stones quarried by revolutionary patriots from the mountain of eternal truth—a republic applying in practice and proclaiming to the world the self-evident propositions that all men are created equal; that they are endowed by their creator with inalienable rights; that governments are instituted among men to secure this right and that governments derive their just powers from the consent of the governed."

"Behold a republic whose flag is loved, while other flags are only feared. Behold a republic gradually but surely becoming the supreme moral factor in the world's progress and the accepted arbiter of the world's disputes—a republic whose history, like the path of the just, is as 'the shining light that shineth more and more unto the perfect day.'"

Mr. Bryan refused to go beyond this statement in any detail and would not discuss in any way matters of policy or personnel of the department. It was made known, however, that Alvey A. Adee, who has held the post of second assistant secretary of state for 26 years and who has been connected with the state department service for more than 40 years, will be asked to remain indefinitely.

Secretary Bryan's office was crowded with visitors, following his return from a long conference with President Wilson.

### Naval Committee's Outing.

Washington, March 7.—Members of the house committee on naval affairs left Washington on the Dolphin and Mayflower for an inspection trip to naval stations at Guantanamo, Cuba, the Panama canal and the navy yards at Key West and Charleston, in the order named. The party expects to be back in Washington on March 30.

### Mrs. Leiter Dead.

Washington, March 7.—Mrs. Maria Theresa Leiter, widow of the late Levi C. Leiter, originally of Chicago but at the time of his death of Washington, died suddenly here.

# NINE MEN ABLE TO RETURN A VERDICT IN CIVIL JURY CASES

**Clerks of Court Receive Notification of Change in the Civil Jury System, and Rehearing of Cases Will Be Less Frequent and Cost Not So Great--Four Men Required to Hang Jury Instead of One as Heretofore.**

The changes made in the civil jury system of Ohio, under which it will not be necessary for the concurrence of all jurors sitting in civil cases in order that a verdict may be returned, but three-fourths or more agreeing will constitute a verdict, will become effective, if indeed it is not now in effect.

In all civil actions in the Common Pleas court new law provides that a jury shall render a verdict upon the concurrence of three-fourths or more of their number, and that the verdict shall be in writing and signed by each of the jurors concurring. They must then be conducted into court where their names shall be called by the clerk, and the verdict handed to the clerk by the foreman. The clerk must then read the verdict to the jury and make inquiry if it is the verdict of three-fourths of their number, and if so the verdict holds.

Either party may require the polling of the jury which shall be done by the clerk of court, asking each juror if it is his verdict. If on polling the jury more than one-fourth of the jury answer in the negative, or if the verdict in substance is defective, the jury must be sent out again for further deliberation.

The law further provides: "If the disagreement of more than one-fourth of the jury be not expressed and neither party requires the jury to be polled, or on the polling three-fourths or more of the jury answer affirmatively, the verdict is complete and the jury shall be discharged from the case. But if the verdict is defective in form only, with the assent of the jurors and before their discharge the court may correct it."

The three-fourths rule holds good in juries in courts of Justice of the Peace, where only six men may constitute a jury. The same law applies to municipal courts where civil cases are tried.

It is expected that the new law will materially reduce the number of disagreements in jury cases, where one man could hang a jury and cause a disagreement. Under the new law nine men may return a verdict in civil cases, and it will require four men to cause a disagreement, so that the cost of jury trials will be decreased by fewer rehearing or new trial.

Clerk of Courts Hitchcock has received copies of the new law and instructions as to procedure under the law, but no authoritative instructions as to just when the new law goes into effect. Attorney Humphrey Jones, says that on a hasty examination of the law he is not positive that the law is not even now in full force.

Common Pleas Judge F. G. Carpenter says that no emergency having arisen, he has not made a critical examination of the subject, but from reading the law only casually he inclines to the view that it does not become operative until after ninety days have expired from the date of its passage and approval by the governor.

In connection with the above change it may be interesting to

## Our Best Assets

**SATISFIED DEPOSITORS AND BORROWERS—THE BUCKEYE STATE BUILDING AND LOAN CO., RANKIN BUILDING, 22 W. GAY ST., COLUMBUS, OHIO.**

1. Depositors satisfied knowing that their money is loaned only on first mortgage on homes, and satisfied also with the five per cent. interest which they receive so regularly.

2. Borrowers satisfied with the fair interest charged, with their semi-annual settlements, and with the privilege of repayment in whole or in part at any time. Assets \$6,500,000.

know that since August, 1909, there has been 52 jury trial in the Fayette county Common Pleas court and in 13 cases the jury failed to agree. Out of the above cases there were nine disagreements in civil cases.

During the first fiscal year beginning August, 1909, only one out of 15 juries disagreed. The second year juries agreed in nine cases. The following year out of nine civil cases four disagreements occurred, and out of seven criminal cases two disagreements took place.

During the past eight months out of 10 civil cases, four disagreements have resulted, indicating that the inclination to disagree has been on the increase, and that there is a real demand for the three-fourths vote verdict.

## Twenty-six More Converts Added

Twenty-six additional converts were added to the already large list in the New Holland union revival meetings last night, and another large number is expected to join the list tonight.

Eleven of those who went forward last night were heads of families, and a number of men and their wives were included in the number.

Boys and girls 12 to 18 years of age made up the remainder of the 26. One man was a veteran of the Civil war, and some 70 winters had passed over his head and turned his hair snow-white. He had never been a member of any church.

Rev. Coleman, of Sabina, who has been leading the singing, preached last night, and Rev. Aldrich preaches tonight. Tomorrow night, Rev. A. L. Vandegriff will preach. The choir is made up of about 35 persons.

So far 86 converts have been added to the various churches through the revival services.

**Smoke a Diamond Joe, 5c.**

## Murder in The First Degree

Joseph V. Haller, the Hillsboro man who shot and killed constable Charles C. Shade a few days ago while the constable was carrying out the orders of the court by removing the man's household goods from the premises he was occupying, has been held to the grand jury for murder in the first degree, and the feeling against the aged murderer runs high. A special grand jury will investigate his case Monday and a speedy trial will result from present indications.

## MANY A SUFFERING WOMAN

Drags herself painfully through her daily tasks suffering from backache, headache, nervousness, and loss of sleep, not knowing her ills are due to kidney and bladder troubles. Foley Kidney Pills will help any form of kidney or bladder trouble, any backache, rheumatism, uric acid poisoning or irregular kidney action. They are strengthening, tonic and curative and contain no habit forming drugs. No one who suffers from kidney and bladder trouble can afford to overlook Foley Kidney Pills. Blackmer & Tanquary.

## Versatile Program Presented By Reader

Miss Jennie Bowman, dean of the School of Expression of the Ohio Northern university, of Ada, entertained an appreciative audience at the Presbyterian church Thursday night.

Miss Bowman, gave a varied program, charming in its selection, and showed her ability in its wide range. Her impersonation work in her most ambitious number, "Rebecca of Sunny Brook Farm" was especially good. "The Old Cradle" with musical accompaniment was one of the prettiest of the readings given, and "The Echo" was also a marked number.

The audience greatly enjoyed Miss Bowman's graceful work with Indian clubs, accompanied by colored light effects, which made a series of beautiful tableaux.

The reader was brought here by the Willing Workers of the East End chapel.

## EASE NEURALGIA NOW WITH MUSTEROLE.

Massage with MUSTEROLE and notice how the pain lessens, and the delicious comfort that takes its place. Sufferers all over the country write us about this amazing, quick relief. MUSTEROLE is a clean, white ointment, made with oil of mustard. Simply rub it on—no plaster necessary.

Better than a mustard plaster and positively does not blister!

Doctors and nurses frankly recommend MUSTEROLE for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet—Colds of the Chest (it prevents Pneumonia).

At your druggist's in 25c and 50c jars, and a special large hospital size for \$2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the Musterole Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

Leo S. Hoag, Athens, Michigan: "Musterole is the first and only preparation of any kind that ever helped my weak lungs. Can truthfully say it is far superior to any other preparation of its kind."

## Motion Overruled In Divorce Case

A motion to dismiss the petition in the divorce case of Marie McClain against Harry McClain, was heard before Judge Carpenter Friday morning and the motion overruled.

The defendant's attorneys, Burkhardt and Heald, of Dayton, filed a motion to dismiss the proceedings because of the alleged non-residence in this county of the plaintiff. However, evidence was introduced to prove that the plaintiff does reside in this county, and the case will be heard April 17th.

## BASKETBALL AT WILMINGTON.

The Boys' High School Basketball team goes to Wilmington tonight for a game with the Wilmington High school.

The line-up will be: Leland Stevens, center; Carl Moore, right forward; Davis Edwards, left forward; Ed Williams, right guard; Paul Zimmerman, left guard; Burnett Hyer and Bliss Casey, substitutes.

## Sells Moving Picture Show

J. E. Smith, who last fall purchased a moving picture show in Columbus and has since been devoting his time to it, has disposed of the business and will soon commence the erection of an aerodome on the city lot in this place.

The aerodome will be ready for business when the warm weather opens up. It will be the first of its kind in the city.

## Aged Citizen Attempts Suicide

Samuel Graham, residing in Clinton county a few miles from Sabina, attempted suicide this week by slashing his wrists in an effort to sever the arteries.

Mr. Graham is about 80 years of age and has not been in his right mind for some little time.

When found he was very weak from loss of blood and his life was saved by the prompt action of a physician who was immediately summoned and closed the wound.

**FOLEY KIDNEY PILLS**  
For Backache Rheumatism Kidneys and Bladder

Blackmer & Tanquary.

## Wilmington Final Victor

An exciting game of basketball was played by the girls of the Wilmington and Washington teams at the Armory Thursday night.

Each team had a credit of one game and this was the third to decide which one was the victor. Wilmington proved the winner by a score of 18 to 10.

It was a fast game and a rough game. The Washington team work was especially good.

The game was played by Dorothy Saxton and Hazel Flowers, two good forwards; Nellie Rowan, Katharine Rothrock, guards; Helen Arehart, 1st center; Marie Mobley, 2nd center.

Stanley Hagerty and the Wilmington coach, Miss Edith Wellington, refereed.

## Ambitious Class To Issue "Annual"

The Senior class of the Washington C. H. High school is preparing to bring out the first High school annual ever issued in the Washington C. H. High school.

The "Annual" is an indispensable part of college and university life, but is not often attempted in High schools. This year the crowded condition of the city schools, together with the large number of pupils who are attending our High school from widely scattered territory through the county, suggested the "Annual" as a means of bringing the class closer together and to show to the public what is being accomplished along the lines of High school work.

The ambition to bring out an "Annual" is highly creditable and the class of 1913 is to be congratulated upon its spirit and ability. Whatever proceeds accrue from the sale of the book will go towards the purchase of an electric clock which the class has pledged to install over the entrance of the new High school building.

The "Annual" will be brought out under the name of "The Owl" and will be a compilation of affairs of vital High school interest, spiced with the humor which is always a feature of a successful annual.

It will be a seventy page edition, handsomely illustrated and with attractive new features.

Paul Zimmerman is showing himself an able editor-in-chief and Ed Williams a good business manager.

The staff includes Davis Edwards, athletic editor; Robert Parker and Jane Saxton, Senior class editors; Katharine Mark, musical editor; Ruth McCoy, literary editor; Mary Weaver, society editor; Anna Conner, artist editor; Carl Moore, humorist; Ross Wiley, who has had a number of his drawings accepted by magazines will assist in the work of illustration.

The annual will be published in both leather and paper. It will be out about the first of May.

## Real Razorbacks

Following is an excerpt from the Greenfield Journal of this week:

"Bill Hamilton received a carload of razor back hogs last week from the wilds of Virginia, which he delivered to one of his customers in the Sunfish Hills.

"They were fine specimens of the southern porkers, hooked feet for climbing hills, long tails to wind around saplings to retain safety while foraging on the mountain side."

## Little Duffee's Motto

The longest pole knocks the persimmons; the lowest prices catch the trade.

Fine granulated sugar still 5½c per lb., or \$1.15 for 25 lbs. Potatoes, 18c peck or 70c per bushel.

Soup beans, 5c per lb. Good bulk coffee, 22c per lb. Old Reliable coffee, 29c. Arbuckle's coffee, 26c. Red Bird coffee, cheap. 4 cans fine corn for 25c. Focke's fine bacon, 16c lb. Breakfast bacon, streaky kind, 20c pound.

Hominy, 2½c per lb. Fine canned blackberries, 10c can. Smoked sausage, 15c lb.; fresh eggs 17c dozen.

Fine large prunes, 10c lb. Fine apples, celery, lettuce and cabbage.

Everything cheap every day in the week.

## Former Resident

## Dies Yesterday

After an illness extending over a period of many long years, Mrs. John Strosnider, formerly of this city, passed away Thursday at her home in Greene county.

Mrs. Strosnider had suffered several years from tuberculosis, and her death has been expected for some time.

The deceased was born in Greene county and her maiden name was Margaret Ferguson. Her marriage to Mr. Strosnider took place in 1881. After living in this city for a number of years they returned to Greene Co. She is survived by her husband and a number of sisters and brothers.

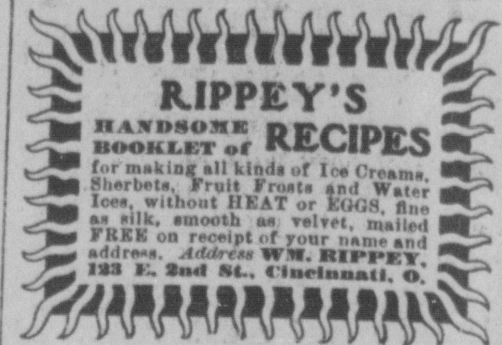

Funeral services Sunday morning, and burial at Mercer Run cemetery.

## DEATHS

STEELE.

Margaret J. Steele, aged 59 years, wife of Charles Steele, died this morning at 6 o'clock at their residence near Good Hope.

Funeral services will be held Sunday at 2 p. m., at the Baptist church. Burial in Good Hope cemetery.

## WILL ERECT HUGE \$75,000 MEAL MILL IN NEIGHBORING CITY

**C. E. Sears & Co., Who Own the Circleville Canning Plant in This City Will Build One of the Largest Meal Mills and Elevators in the State.**

C. E. Sears & Company, of Circleville, who two years ago purchased the Circleville Canning Plant in this city, have just contracted for one of the largest meal mills and elevators in the state to be erected in Circleville during the coming spring and summer at a cost of \$75,000.

The plant will have a capacity of 1000 barrels daily, which will consume some 5000 bushels of corn, it is announced.

Plans call for a mill building four stories high and constructed of brick paying blocks. The floors will be built of fire-proof material and the entire mill will be fire-proof throughout. The elevator will be included in the same building, and steel grain storage bins will be installed with a capacity of fully 50,000 bushels. It is the intention of the company to market their products not alone in the United States but to export to the West Indies and South African ports.

In connection with mention of the new mill, the Circleville Union Herald says:

"Circleville can be congratulated on having such men as H. M. Crites and Herman Shade of Canal Winchester, who compose the C. E. Sears & Co., as their citizens.

They now own and operate six large canning plants, which are distributed in the following cities: Circleville, Washington C. H., Canal Winchester, Stoutsville, Lockville and Summit, Ohio. They are the largest packers of green peas in Ohio and the largest corn packers in the world. They also own 4000 acres of the best farming land that can be found anywhere bordering Circleville, on which they grow products for canning purposes.

"Their pay roll last year to factory employees was \$52,000.

"Another thing Circleville people must say that with all the improvements that have been developed by H. M. Crites and this company, they have supplied their own capital, while thousands of dollars have been given to wildcat promoters who only remained here long enough to get the people's money.

"Mr. Crites stated that the mill will be constructed for the milling of flour as well as for the manufacture of corn products; although at present flour milling machinery would not be put in, but would be probably added later if the growth of business demanded this addition.

"The cost of building and machinery is estimated at \$75,000. The mill will be constructed on the ground of the C. E. Sears factory, between the engine house and the present frame warehouse. Excavation for the building will be begun in two weeks."

The Willing Workers of the East End Chapel will have a sale of home-made eatables at Haynes' Furniture Store Saturday morning, March 8th, at eight o'clock.

## Barge Load Of Dynamite Lets Go Killing Scores

Special to Herald.

Baltimore, Md., March 7.—

A barge loaded with dynamite and destined for the Panama Canal, exploded this morning, blowing up the British steamer Alunchine and the tug Aalantic.

Seventy-five men are missing and 30 bodies have been recovered. Windows 16 miles distant were broken by the terrific concussion.

### HOW TO RESIST.

#### Chronic Coughs and Colds.

Strong vigorous men and women hardly ever catch cold; it's only when the system is run down and vitality low that colds and coughs get a foothold.

New isn't it reasonable that the right way to cure a cough is to build up your run down condition again?

Mrs. Olivia Parham of East Durham, N. C., says: "I took Vinol for a chronic cough which had lasted two years and the cough not only disappeared, but it built up my strength as well."

The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with tonic, blood building iron added.

Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system.

You can get your money back any time if Vinol does not do all we say. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

P. S. For itching, burning skin try our Saxo Salve. We guarantee it.

## Danger Of White Lead

Occupation is undoubtedly the most important factor in causing lead-poisoning; and among the occupations the most dangerous are those in which lead is freely handled. This applies particularly to working in white lead and lead colors. The grinding of white lead with oil was formerly a large source of lead-poisoning, because the pigment was dry, and consequently the grinding-mill attendants and the lead-work laborers inhaled lead dust; but since in many factories the paint is now made with the lead in the moist state, by the gradual displacement of the moisture with oil during the process of grinding, this source of danger has decreased. The dangers incidental to the manufacture of red lead are extremely serious. The Journal of the American Medical Association quotes a recent writer in one of the trade journals who reports that a large decrease in plumbism in the manufacture of white lead has followed the abolition of female labor and youthful labor in England. The decrease is also consequent on ventilation, the use of respirators, overalls, enforced cleanliness and the avoidance of lead dust. No material increase in the cost of manufacture has resulted, but death and suffering have been averted. It is always gratifying to learn of progress in combating occupational disease, especially when, as in the lead industries, it has been so difficult to induce those employed to co-operate to their own sanitary advantage.

#### Farmer Dies at 103.

Long Branch, N. J.—William Redmond, the oldest resident of this section of the state, died at the home of his niece, Miss Mary E. Gaugel, at Oakhurst, at the age of 103. He had been failing in health since he passed his one hundredth birthday.

On that occasion he visited a relative in New York, inspecting the Brooklyn bridge for the first time.

## Liquor License Bill Is Passed

Special to Herald.

Columbus, O., March 7.—The

Senate today passed the Liquor license bill by a vote of 28 to 4.

## A COLD, LA GRIPPE, THEN PNEUMONIA

Is too often the fatal sequence. La Grippe coughs hang on, weaken the system, and lower the vital resistance. R. G. Collins, Postmaster, Barnegat, N. J., says: "I was troubled with a severe La Grippe cough and was completely exhausted after each fit of violent coughing. Before I had taken one half of a bottle of Foley's Honey and Tar Compound, the coughing spells had entirely ceased. I wish to say it can't be beat. All others are imitations." Blackmer & Tanquary. Adv.

## Printing 12,000 Stamps a Minute

It is a fact not generally known that the United States has at Washington D. C., one of the largest and best equipped printing plants in this or any other country. Uncle Sam may be safely said to hold the world's record as a printer—not only in size of plant, number of employees and extent of output, but also in up-to-date scientific management, efficiency and economy.

An interesting example of what this sort of modern efficiency means is a machine which prints, gums and perforates 12,000 postage stamps a minute. Figuring on an eight hour day, this is a production of 5,760,000 two cent stamps, worth \$115,200, as a day's work for two operators required on the machine. The stamps are shot out—there is no other way to express it—at the rate of 70 feet a minute. This means over six miles of postage stamps a day.

The machine eliminates 19 separate operations required by the previous method of printing and has effected a saving of 57 per cent in cost. The whole apparatus, which is three feet wide, twenty-five feet long and seven feet high, is driven by a Crocker-Wheeler motor. One man and a girl are able to operate the entire machine and the perforating device connected with it. Mr. B. R. Stickney, mechanical expert of the United States Bureau of Printing and Engraving, is the inventor who developed the machine for the special use of the government printing plant.

#### AN EPIDEMIC OF COUGHING

Is sweeping over the town and young and old are alike affected. Foley's Honey and Tar Compound is a quick safe reliable family medicine for coughs and colds. A. S. Jones, of Lee Pharmacy, Chico, Calif., says: "I consider Foley's Honey and Tar Compound has no equal, and is the one cough medicine I can recommend to my friends, as containing no narcotics or other harmful properties." Refuse all substitutes and take only Foley's Honey and Tar Compound. Blackmer & Tanquary. Adv.

## The Kind and the Cost

The problem of how to make and maintain good roads in the rural districts and good streets in the cities and towns seems to be confronting the authorities with such firm insistence that it can neither be pushed aside nor circled around until it is solved.

During the last few years this problem has loomed up so formidably in the immediate fore-ground that many other questions have been sidetracked. In short the problem of good roads and streets may truthfully be said to occupy the vantage position over all else just now.

Every man who travels the roads or the streets knows of this problem. It is not an abstract question, it is not off yonder in some other county or some other community, it is here, there and everywhere, right at the gate of every man's residence, right at the door of his business house. It effects every man in his coming in and going out, whether it be for business or for pleasure, and in both instances is a very potent factor to be reckoned with in making up the contents of his pocketbook.

There are few men indeed, who will controvert the assertion that we should have better roads and streets than we have now, few men who will join issue with the statement that our need in that regard is an imperative and a pressing one. On these two primary points the people of all sections may be reckoned as agreeing.

When, however, the work of solution proceeds to the next steps, of what shall these "good roads" be built and how shall we pay for them, the opinions are many and widely different. Few men in any community can be found to agree on how to build the roads we need so much, what material to use in the construction and how to raise the money to build and maintain the roads.

So far as any generally accepted plan or any plan of either doing work or paying for the roads is concerned, recognized by test as practical, the problem is in its infancy.

It is too early to measure the real worth of proposals by the yard stick of "best by test".

The experiments which have been tried both in construction and revenue raising are not far enough behind us to answer that purpose.

Of the multitude of plans suggested, about all the good people, who want and who need these roads, can do is to use their best judgment, not go in too steep at the start and feel their way along until a practical means is adopted.

People should have patience with conscientious officials and assist them, by suggestions either of agreement or disagreement, but refuse to doggedly adhere to any preconceived notions based on true or wholly false information.

This question must be solved—every man wants it solved correctly, but all must give and take a little in order to make any advance. Where there are so many and such widely different ideas existing, all cannot be right. Men charged with the duty of finding a way out should be aided not hindered.

No one will argue that we can get along with the roads and the streets we have now, but a debating society can be started almost any place where two or more men happen to gather on the kind and the cost of new roads and streets.

## Rising Prices the Greatest Blessing of the Human Race

By Professor IRVING FISHER, Political Economist

AFTER FIFTEEN YEARS OF RISING PRICES WE HAVE HYPNOTIZED OURSELVES INTO THINKING THEY ARE AN UNMIXED EVIL. BUT RISING PRICES ARE, IN FACT, THE GREATEST BLESSING TO THE HUMAN RACE.

How fervently the men of the nineties prayed for them! Each generation is MORTGAGED TO THE ACCUMULATED CAPITAL OF THE PAST and has got to meet the interest and principal of its debt. It is twice as easy to meet these payments with prices rising as it is with prices falling.

Rising prices strike off the shackles of our debt to the past and open the doors of opportunity of the future. CAPITAL LOSES, BUT HUMANITY GAINS. The rise in prices in the sixteenth century helped the people of Europe to shake off the inherited burdens of the feudal system and to clear the stage for the entry of modern commerce. FALLING PRICES, ON THE OTHER HAND, MAKE COWARDS OF US ALL. They slam the door of opportunity in our face.

IT ISN'T THE RISE IN PRICES, BUT OUR FAILURE TO ADAPT OUR ECONOMIC MACHINERY TO IT, THAT CAUSES ALL THE TROUBLE.

Wages don't respond like prices. They lag behind prices. They are the last to rise and the last to fall. They never rise as high or fall as low. There is the same lag in the interest rate. This lag in wages and interest gives to the adventurous and bold the chance of profit and CAUSES TRADE EXPANSION.

## Poetry For Today

## REBELLION.

How firm was our faith in the old-fashioned doctor,  
Who came with his remedies ready to use  
And cured us of fever and ague and headache  
With forty-nine bottles of different hues;  
With capsules and pellets, pills, powders and sirups,  
In doses colossal, sweet, bitter and sour,  
And poured the things down us in rapid succession,  
Explicitly ordering more in an hour.

But now, when we're prompted to call a physician,  
He comes in an aura of sunshine and hope,  
Investigates matters and writes a prescription,  
And this takes the place of the old-fashioned dope;  
Fresh air, early hours, less tobacco and coffee,  
More sleep, filtered water, plain diet each day,  
And exercises! Pshaw! It's a high-handed swindle  
To have to be cured in this new-fashioned way!

—Judge.

## Weather Report

Washington, March 7.—Ohio—Fair and warmer Friday; Saturday increasing cloudiness and warmer; light variable winds.  
West Virginia, Kentucky and Tennessee—Fair and warmer Friday; Saturday increasing cloudiness.  
Illinois—Mostly cloudy and probably unsettled weather Friday and Saturday; warmer Friday; moderate south winds.  
Indiana—Fair and warmer Friday; Saturday increasing cloudiness.  
Lower Michigan—Fair and warmer Friday; Saturday probably snow flurries, with warmer in east portion; moderate variable winds.

## A GLIMPSE BACK THROUGH YEARS

March 14, 1867.

Mud Blockade—All roads leading to town are at present completely mud-bound, and almost impassable, and the conditions of our streets no better. It would require the use of adjectives somewhat more emphatic than our moral and religious readers would approve of, to fully express the horrible muddy state of affairs.

Mud to the right of us,  
Mud to the left of us,  
Mud in front of us,  
Nothing but mud.

Coal oil continues to float off upon the surface of the water from the spring on Mr. Amos Goldsberry's farm, near Staunton, in this county, which we noticed a couple or three weeks since. It is supposed that a barrel and a half of pure coal oil escapes in this way every 24 hours.

Lime! Lime!—Do you use lime? The subscriber has, at his kiln at the Sugar Church, fresh burnt stone lime for sale. He designs keeping a supply constantly on hand, for sale at prices as low as it can be obtained for anywhere in this section of the country.

## INTERESTING BITS OF NEWS

Three experts from the east have appraised and made a thorough physical examination of the gas, water and electric light of Wilmington, with a purpose in view of combining the companies under one management.

A report that M company, 1st regiment stationed at Greenfield, Ohio, will be transferred by the Adjutant General to the 4th Infantry and the companies at Hillsboro, Lebanon, Betavia and Manchester will be formed into a separate battalion not connected with any regiment, is current among the soldier boys.

The season for wild duck shooting in Ohio opened Saturday and a large number of hunters have gone to the Lewistown reservoir to enjoy the sport. Several flocks of wild fowl have been seen by farmers along the creeks in this vicinity during the past few days.

The Circleville and London turnpike which runs through Derby, is to be improved at an estimated cost of \$9917.83. The material to be used is what is called bituminous concrete.

Many of the sufferers from the dread White Plague in the counties surrounding Fayette have made arrangements to go to New York to place themselves under care of Dr. Friedman, the discoverer of what is heralded to be a cure for tuberculosis.

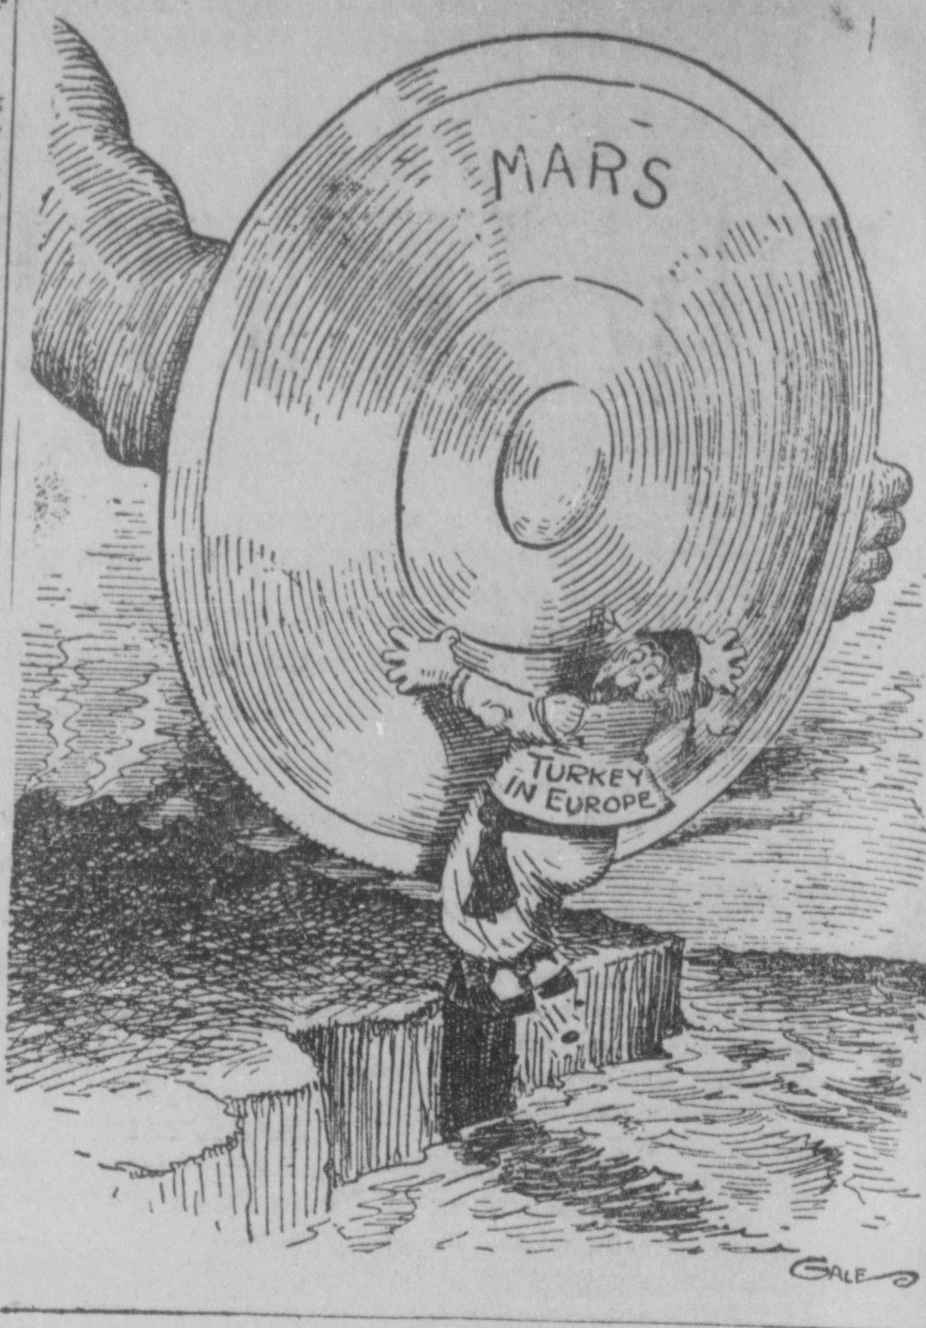

It must be some satisfaction to the Ohio apple growers as well as consumers, that the markets for the native fruits has held the price of western apples stationary. Greenings, Baldwins and Rome Beauties have been advancing while the western box fruit is quoted no higher than it was several months ago.

A Xenia doctor was astonished the other evening when a young colored boy appeared at his office holding his ear in his hand and demanding that it be replaced at once. The kind hearted doctor, although the operation was a delicate one, proceeded forthwith to sew the severed organ back to its place. The grafting is believed to be successful.

## Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the scalp pores to close and the scalp to become shiny. Then, it is believed nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rexall "93" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Prof. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair; and if any human agency can promote a new growth of hair it will do that, too.

We want you to make us prove it. We will pay for a month's treatment of Rexall "93" Hair Tonic used during a trial, if you will use it according to directions, and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your mere request will get your money back if you want it. Two sizes: 50c and \$1.00.

You can buy Rexall "93" Hair Tonic in this community only at our store:

## COCOS ISLAND STILL KEEPS ITS TREASURE

### English Expedition Comes Back Empty Handed.

Panama.—The treasure hunting expedition led by Miss Genevieve Davis, an Englishwoman, which had been looking for buried gold on Cocos Island for many months, got back here. A good time was had by all. No treasure was recovered.

Benito Bonito was a regular pirate, who in the early part of the nineteenth century settled down to "singeing the beard of the king of Spain" along the coast of Mexico. When he got any money together he buried it on Cocos Island, after the manner of pirates, and made a map with skull and crossbones marking the spot where the treasure was hid. His heirs have made a substantial living selling these maps to those whom romance and the works of R. L. Stevenson have touched.

Miss Davis' expedition started out from Plymouth with one of the maps and a vessel armed with a six pounder to fight the natives of Cocos Island, which lies 550 miles southwest of

Panama, on Sept. 10 last. The only woman besides Miss Davis aboard the ship was her friend, Mrs. Barry Till.

At the same time Miss Davis organized her expedition one of the representatives of the Benito Bonito Buried Treasure company was on the road in the south of France and sold a map to Mme. Matilda Durand of Marseilles, who forthwith announced that she was going to get up an expedition of her own. Her map, she said, was better than Miss Davis' because in addition to the skull and crossbones it told just how many paces you took from the palm tree on Dead Man's hill to get to the cave where the treasure was buried.

And then when Miss Davis' expedition was on the high seas who should start out after the treasure but Thomas McEwen of Victoria, B. C. His map had a little picture of Benito's vessel with all sails set skimming around the Cocos Island harbor.

No mention has come over the cables as yet of the fate of the Durand and McEwen expeditions. Three new hotels have been opened on the Cocos Island main street, however.

### Adopts "Child" Forty-five Years Old.

Chicago.—Miss Elizabeth Robinson, described in adoption papers filed a fortnight ago as a "child forty-five years of age," became the legal daughter of Mrs. Martha Francis Collins by action of Judge Honore. Mrs. Collins was childless. She has known the "child" in the present case forty years.

## KING GIVES TITLE TO SCOTT'S WIDOW

She Has Rank and Precedence  
of a Knight's Wife.

### ONLY A FEW SIMILAR CASES

Most Celebrated Instance In 1801, When Baroness Abercromby Was Honored. Bestowal of Victoria Cross For Relative's Bravery Is Common—The Case of Mrs. Disraeli.

London.—It was officially announced that the king had been pleased to grant to Mrs. R. F. Scott the same rank, style and precedence as if her husband had been nominated a knight commander of the Bath, as he would have been had he survived.

The honor thus done to Captain Scott's memory receives the warm approval of the newspapers, some of which had given support to the suggestion that the explorer's widow should receive a title. As a knight's widow Mrs. Scott will henceforth be known as Lady Scott.

Although the king rarely exercises his prerogative to bestow a title upon a woman, Mrs. Scott is not the first thus honored. The most celebrated instance of a woman receiving a title was in 1801, when Sir Ralph Abercromby died from wounds after the battle of Alexandria. A few months later his widow was created a baroness of the United Kingdom in her own right. The widows of some officers killed in the Crimean war and the

## "The Witching Food"

Has Just Come Out

For ten years we have waited to make this announcement—of bubbles puffed from corn.

It has taken ten years to learn how to produce them. Now the new food is ready.

It is the inner part of white corn—granulated, cooked and toasted—made into pellets and puffed.

The result is airy globules—thin and flaky—chocolate-colored, almond-flavored.

It is so insidious—so irresistible—that users call it "The Witching Food."

We call it Corn Puffs.

It will soon be the talk of the city. Please try it while it's new.

LADY SCOTT.

widows of one or two officers who lost their lives in the Boer war received knights' widows' ranks.

There are two peeresses in their own right who received their titles on the death of their husbands in consideration of the latter's eminent public services—Viscountess Hambleden, widow of the Right Hon. W. H. Smith, leader of the house of commons, and Baroness Macdonald of Earncliffe, widow of Sir John Alexander Macdonald, prime minister of Canada. Both these titles were conferred in 1891.

Numerous instances are also found of the bestowal of titles on the wives of eminent men who remained commoners. The chief cases are those of the wife of the elder Pitt, Baroness Chatham, and of Mrs. Disraeli, who was created Viscountess Disraeli eight years before her husband became Earl of Beaconsfield.

Relative of dead soldiers have on many occasions received Victoria crosses which would have been awarded to the heroes had they survived. The best known example is that of Lady Roberts, who received the cross won by her son, Lieutenant Roberts, who was killed in the battle of Colenso.

### A MESSAGE TO RAILROAD MEN

E. S. Bacon, 11 Bath St., Bath, Me.

sends out this warning to railroaders everywhere. "My work as conductor caused a chronic inflammation of the kidneys and I was miserable and all played out. I was weak and had dizzy spells, and a friend recommended Foley Kidney Pills. From the day I began taking them, I commenced to regain my strength. The inflammation is gone and I feel better now than I have in twenty years."

Try them. Blackmer & Tanquary.

### SENDS WIRELESS 2,000 MILES

Arlington Station Exchanges Messages With the Cruiser Salem.

Washington.—Wireless communication between the Arlington station, near here, and the cruiser Salem was carried on when the vessel was more than 2,000 miles across the Atlantic.

Signals from the Salem indicated her distance, and she reported that she was receiving the signals from here.

## All the World Contributes To Your Happiness

By John P. Fallon.

The natives of Ceylon send their choicest teas, the peasants of Switzerland supply the daintiest needle work, France contributes marvellous silks, Ireland linens and England suitings of wondrous texture. The products of the world are brought by boat and rail to your very door.

Merchants, eager to please, fascinate and gratify your desire for "something new," ransack the earth to secure the things that will delight and captivate the hearts of their customers.

The new things for Spring are budding out. Every day from now on stories of new millinery, new apparel and new fabrics will be told. It is the most interesting news of the year.

Read the advertisements in THE HERALD closely and constantly every day, then you will be well informed regarding the styles for Easter, the latest importations from abroad and the newest ideas for furnishings in the home. Besides, you will know of every opportunity to economize.

## They Do The Work As Promised

### STORAGE BATTERY CAR'S RUN

Not a Hitch In the Long Trip From New York to Boston.

New York, March 7.—Out of the Grand Central terminal, a railroad car propelled by electricity supplied from a set of the new high power storage batteries, quickly attained a speed of 30 miles an hour. At High Bridge the speed was increased to 40 miles and at that rate the car clipped quietly up the Hudson, over the mountains and into Boston, 310 miles away. It was both the longest and fastest run ever made by a storage battery car. There was not a hitch from beginning to end, scarcely a sound and never a speck of soot or cinder. The run was made in less time than local trains of the New York Central require for the trip, but was somewhat slower than the time of the expresses.

Fresh supply Mrs. Austin's Bag Buckwheat now on hand at your grocers.

## Buckeye State Happenings

### Includes All Private Banks.

Columbus, O., March 7.—Any sort of an institution, except national banks, doing any sort of banking business in the state, whether it be conducted by a firm, person or corporation, must be subjected in operation to the rules of the state banking department, if a bill introduced by Senator Zmunt of Cuyahoga county becomes a law. Thus all private banking institutions will be governed by state laws and subject to inspection. The bill prohibits any person connected with the state banking department from borrowing from institutions which come under his supervision.

### Durbin Prefers Private Life.

Columbus, O., March 7.—One Ohio man has already declined a position in the official family of President Woodrow Wilson, according to gossip. The story was that W. W. Durbin of Kenton, one of the leaders in the fight for Wilson a year ago, had been given the refusal of the position of first assistant postmaster general. Durbin preferred private life.

### Inventor Hallwood Run Down.

Columbus, O., March 7.—When Henry S. Hallwood, cash register inventor, attempted to cross High street at Long street on his way to his office, he slipped on the icy street and fell directly in front of an automobile. The front wheels passed over his body, breaking two ribs and thumb of his right hand and bruising his face.

### Shaker Estate Transferred.

Dayton, O., March 7.—The greatest real estate transaction in farm lands in Ohio for a half century was consummated here. The great Shaker estate, more than 4,000 acres, situated in Warren county, was transferred by warranty deed to the United Brethren church, the same to be converted into an orphanage and series of homes.

### Cox Spares Smith's Life.

Columbus, C., March 7.—Upon recommendation of the pardon board Governor Cox has commuted to life imprisonment the sentence of Milton Smith, who was sentenced to be executed at the pen March 14. Smith killed a man in a quarrel at Gallipolis in 1912.

### Pardon For Rose Dvorkin.

Columbus, O., March 7.—The pardon board recommended a pardon for Rose Dvorkin, sentenced for five years for the killing of Jacob Horwitz at Cleveland. She was received at the pen last fall. She has two small children.

### Labor Leader Thomas Dead.

Cleveland, O., March 7.—Harry D. Thomas, 48, secretary of the Ohio Federation of Labor, died at his home here. Thomas' death followed an illness of three months. He was a carpenter by trade.

Fresh supply Mrs. Austin's Bag Buckwheat now on hand at your grocers.

### Caught In Belting.

Jefferson, O., March 7.—Attempting to replace a belt that had come off a drive wheel cost Walter W. Gates, senior member of the firm of Gates & Beckwith, feed mill proprietors, his life. Mr. Gates' left arm was caught between the belt and the main shaft and he was whirled rapidly around the main shaft of a 50-horsepower engine at the mill. He was shockingly mangled.

YAS—IM THE GUY!

I CAME UP TO CONGRATULATE YOU AND THANK YOU FOR YOU PACKED THE HOUSE!

OH SLIP IT TO CASSY HE SAYS UM—!

# OLIVE TABLETS OIL THE BOWELS

## A Physician's Substitute for Dangerous Calomel.

When you feel that your liver and bowels need help take Dr. Edwards' Olive Tablets. Substitute for Calomel. Calomel is effective, but dangerous—causing bad after-effects. Olive Tablets are especially made to take the place of Calomel. Dr. Edwards for years has been Calomel's foe. He saw its dangers and its disadvantages in 17 years' practice, treating patients for all kinds of liver and bowel complaints. In his efforts to do without Calomel he developed his now famous little olive-oil-colored tablets. Olive Tablets are mild but effective. Safe and sure. Pleasant to take but unfailing in results.

Olive Tablets oil the bowels just enough to start Nature's own action, and they tone up the liver at the same time. They are made from a rare combination of vegetable compounds mixed with olive oil.

If you want to regain that feeling of joyous buoyancy and clear thought take Dr. Edwards' Olive Tablets. They work like a vacation. 10 and 25 cents per box.

"Every little Olive Tablet has a movement all its own."

The Olive Tablet Co., Columbus, O. Adv.

# Three Killed Six Wounded

## Special to Herald.

Sharon, Pa., March 7.—Three men were fatally and six seriously injured in an explosion in a puddling furnace of the Wilkes Rolling mills.

# Can Send 40,000 Words a Minute

Antonie Pollak, the Hungarian inventor, recently gave in New York a demonstration of his rapid telegraph system by which 40,000 words an hour can be despatched. The apparatus consists of a perforating machine, in some respects similar to a typewriter, for the making of perforated tape, an automatic transmitter and a receiver.

The message is first transferred to the tape and as the machine for this operation is separate from the other apparatus a dozen or more operators may aid in preparing the same despatch in order to facilitate this part of the work. This perforated tape is then placed on the automatic transmitters, which sends the message at lightning speed over the wires to be received miles away where it is transferred into manuscript form again by the receiving apparatus.

The receiver utilizes the electric currents in making them act on membranes which in turn act on a mirror. The mirror reflects the light from an electric lamp and projects a spot light on a band of photographic paper. As the mirror rests on a fixed point one of the membranes gives it a verticle motion and the other a horizontal motion. By combining these two motions the reflected light writes, in the dark room, the message on the sensitive paper in Latin characters. The paper is automatically developed and fixed in a special part of the apparatus. From there the paper slip goes out ready to be developed. The width of the sensitive band on which the message is received is two and three-fourths inches.

## ABOUT PAUL J. RAINEY.

There is no more famous big game sportsman in America today than Paul J. Rainey, a young man of wealth, who conquered the animals of the Far North before venturing into the African jungle. Mr. Rainey equipped the costly expedition, and with J. C. Hemment, an expert photographer, who had previously accompanied him on a trip to the Arctic, and two big hunters, penetrated the wildest in all Africa—for the purpose of photographing the wild beasts in their native haunts. The thrilling and educational pictures taken on this trip will be seen at the Southern theater, Columbus, for two weeks, starting Sunday afternoon, March 9. Prof. Edmund Heller, of the Smithsonian Institute, accompanied the expedition to preserve specimens, and to direct the trap setting when it was found desirable to capture the wild animals alive, and Dr. M. E. Johnstone, of Lexington, Ky., was also of the party.

No more remarkable and educational pictures have ever been seen than these secured by Mr. Rainey and Mr. Hemment, and those who have not already done so, should not fail to see them during this engagement at the Southern. There will be two displays of the pictures each day, at 2:30 and 8:15 o'clock. The prices for admission will be 25, 35 and 50 cents.

## HARTMAN THEATER.

### The International "Ben-Hur" To Be Staged in Columbus.

All the Oriental splendor of the Indian Durbar which King George V. of England journeyed to Delhi in India to take part in, will be brought to the doors of Columbus in Klaw & Erlanger's elaborate new production of "Ben-Hur", which inaugurates an engagement at the Hartman theater the week of March 17, with matinees on Wednesday and Saturday. Never before in the history of the stage has there been so much wealth expended on the presentation of a historical spectacle. Flashing jewels, dazzling armor, magnificent robes, superb draperies, the marvelous rugs of the far East, the costly furnishings of two thousand years ago—all these things are combined and displayed in the wonderful revival. Klaw and Erlanger, the owners of this most wonderful piece of theatrical property, have given it a production which in magnitude and spectacular grandeur eclipses any production shown up to date on the American stage or in the theatre of any other country. The magnitude of the scenic settings is of such a nature that there are only a few theatres with stages large enough to accommodate the equipment. Carpenters, electricians and a horde of other workers are now in possession of the Hartman theatre stage, getting ready for this production, and when the curtain does rise on the solemn and beautiful scene in the desert where the Wise Men are waiting for the signal, the Star of Bethlehem, to point them the way to the Messiah, the spectator will view the spectacular achievement of American stagecraft. Klaw and Erlanger taxed the enormous resources of their theatrical plant in every department in building this new equipment. Their scenic artists and costumers, their engineers and electricians worked for one solid year in combination and under the direction of artists and historians, antiquarians and scholars, to accomplish the seemingly impossible—the effacement of former memories of "Ben-Hur" productions. With this new spectacle they have built for themselves a monument as enduring as the name of Shakespeare in the glories and beauties of the new setting for the greatest story the world has ever known, "The Tale of the Christ".

The scale of seats begins Thursday, March 13. The prices will range from 50c to \$1.50, the first time in America at this scale.

# How to Get Rid Of the House Fly

The fly is a nuisance besides a carrier of infectious diseases, and the attempt to exterminate it needs no justification. How one can make one's home, town or city flyless is described by C. F. Hodge of Clark University, Worcester, Mass. He says that the American public spends \$10,000,000 a year for window and door screens in a futile attempt to exclude a lively insect which insists on getting into the house every time the doors are opened. He believes also that the method of swatting the flies, using fly-paper or indoor traps or poisons is ineffective, but may help. His method is to make use in various ways of the conical wire-mesh fly-trap, which is familiar to almost everyone, in such a way as to turn the tables on the flies and "put them in jail and let ourselves out."

The plan involves, of course, the abolition as far as possible of all breeding and feeding-places for flies and the application of the fly-trap mentioned above to the garbage-can, to the screens on windows, to the covers on manure-bins, etc., all of which can be done by a little mechanical ingenuity. Garbage-cans are on the market which have a cover larger than the can and not fitting down closely on it so that the flies gain access to the can under the cover and escape through a hole in the cover over which is fixed a fly-trap. In fighting the fly, Hodge has found that the essentials of a successful campaign are to transfer the fight against the fly from the house to out doors, and then to exterminate it.

Another essential feature in a town or city is that households must cooperate. One ignorant or careless home can breed flies enough to vitiate the best endeavors of a whole town. Hodge has succeeded in his neighborhood in practically eliminating flies; he uses no screens in windows and doors, and can sit out doors or have windows or doors open at any time without molestation. As flies begin to breed early in the spring and as they breed with marvelous rapidity, the time to arrange for a fly-campaign is in the winter.

—American Medical Journal.

# RID YOUR FEET OF SORE CORNS.

Quite easy now to extract any kind of a corn—just apply Putnam's Corn Extractor—it works wonders, stops the pain quickly, the thick tissue is softened, and healing goes right to the heart of the corn. In a few hours the hard core is loosened and separated from the toe. Out comes the corn. Toe is left smooth—not a mark left. Use only Putnam's Painless Corn Extractor, recommended by druggists and sold in 25c bottles by Blackmer & Tanquary.

Adv

## Sacking Prayer With Words.

This is an old illustration of the adage "Trust in God and keep your powder dry." As told in Ramsey's "Recollections," the experience is attributed to a well-known Scotch divine.

Dr. Macleod was on a Highland loch when a storm came on which threatened serious consequences. The doctor, a large, powerful man, was accompanied by a clerical friend of diminutive size and small appearance, who began to speak seriously to the boatman of their danger, and proposed that all present should join in prayer.

"Na, na," said the chief boatman; "let the little ane gang to pray, but first the big ane maun take an oar."

## Janina Falls Into Hands Of The Allies

GREEKS WILD WITH JOY

Capture of Turkish Fortress, With 32,000 Men, the Cause.

Athens, March 7.—The city was in a delirium over the capture of the Turkish fortress of Janina, in Epirus, and the surrender of 32,000 men. Rockets were fired, there was much waving of flags and universal illuminations. The fortress, which had been bombarded by the Greeks for months, was entered by squadrons of Greek cavalry under the command of General Fouzo. The capture of Janina is regarded here as one of the most brilliant episodes of the war. Janina is the center of the grain trade in the eastern provinces of European Turkey and the garrison was fairly well supplied with provisions throughout the siege.

THREE TRANSPORTS SUNK

Turkish Cruiser Sends Serbian Soldiers to the Bottom.

Vienna, March 7.—The Turkish cruiser Hamidieh sunk three Greek transports loaded with Serbian troops on the way to Scutari, according to a Constantinople dispatch to the Neue Freie Presse. The attack on the transports occurred, it is said, near the peninsula of Hagion Oros, in the Aegean sea. The convoy of Greek transports was a large one, consisting of 24 vessels, which carried 34 guns.

## Have All Confidence In Big Stick To Knock It

NOT SUPERSTITIOUS

Miss Roosevelt and Doctor Derby To Be Married On Friday.

New York, March 7.—Plans are being arranged for the wedding of Miss Ethel Carow Roosevelt, daughter of Colonel and Mrs. Theodore Roosevelt, to Dr. Richard Derby of this city. The wedding will be in the Episcopal church in Oyster Bay, L. I., on April 4, and a reception will follow at Sagamore Hill, Colonel Roosevelt's country place. April 4 comes on Friday, and evidently Miss Roosevelt and her fiancé have no superstition as to marrying on that day, which was chosen because they are to sail for Europe the following day.

## Myron T. May Hold For a While

Washington, March 7.—Myron T. Herrick of Ohio, ambassador to France, may continue at his post for a few months in order that he may conclude his investigation of the farm credits system of France, which many are anxious to have introduced into this country. It is stated that strong influences are being brought to bear on President Wilson and Secretary of State Bryan to defer the nomination of Mr. Herrick's successor.

## Gets O'd Job Back

Washington, March 7.—Postmaster General Burleson appointed Merritt O. Chance chief clerk of the post-office department, to succeed George G. Thomson, resigned to enter private business in New York. Mr. Chance was formerly chief clerk of the department and private secretary to Elihu Root when the latter was secretary of war.

Marble's Nomination Approved. Washington, March 7.—President Wilson's nomination of John H. Marble to be a member of the interstate commerce commission was approved by the interstate commerce committee of the senate, and was ratified at today's session of the upper house.

Former Legislator Dead. Plain City, O., March 7.—James T. Black, 81, who represented Madison county in the Sixty-sixth General assembly in 1884-5, is dead here.

## The German Scientist Is at Last Permitted To Make Test

TREATS THREE PATIENTS

Friedmann Given Opportunity to Meet Tuberculosis Sufferers.

New York, March 7.—Dr. Friedrich F. Friedmann of Berlin was granted an opportunity to carry into effect his promise to treat tuberculosis sufferers with the serum he claims is a remedy for the white plague. He gave the treatment to three patients, two men and one woman, at the People's Tuberculosis hospital. The three into whose veins and muscles he injected his serum were chosen from a group of 50 tuberculosis patients who had been gathered at the hospital at the instigation of Dr. Max Landeman, the superintendent, and the board of directors.

## Simplifying the Work of Choosing Men

(Continued from Page One.)

Liquor License Fight.

Victory and defeat perched on the banners of both the wet and dry forces at the close of the first battle in the senate on the Greenland liquor license bill.

The wets secured the defeat of an amendment to prohibit saloons within 300 feet of a schoolhouse. The drys had an amendment passed prohibiting brewers from conducting a wagon retail business in residence sections. The vote on the latter was 17 to 16.

The hottest fight was waged on the amendment to prevent saloons from locating within 300 feet of a public or parochial school. The amendment was offered by Senator C. J. Howard of Belmont, Republican floor leader, and though it was supported by the majority leader, Senator William Green of Coshocton, it lost by a vote of 12 to 21. Those voting for the amendment were Senators Beman, Broadstone, Cunningham, Gallagher, Green, Howard, Kiser, Lloyd, McDermott, Moore, Weiser and Weygant.

Senator Howard declared the amendment voiced the sentiment not only of educators, the pulpit and all right-thinking people, but probably a majority of the wet element as well. He asked for its passage on moral grounds and in behalf of the children.

Senator Greenlind in making his initial argument for the measure said Governor Cox had approved it section by section and as a whole. In defending the appointment of county licensing commissioners by the state commission, he said the governor would be responsible for the action of all boards in the long run, since he would appoint the state board.

An amendment offered by Senator Hudson cuts the salary of state licensing commissioners from \$6,000 to \$5,000 a year.

Final vote on the measure will likely be taken late this afternoon.

Favor Nine Hours For Women.

Columbus, O., March 7.—The house committee on labor voted to report out the Doster eight-hour for women bill with an amendment, making it nine hours and applying to all classes of employment. The same committee voted to recommend the passage of the Hudson senate bill, providing for semi-monthly wage payments, and this will be substituted in place of the Welch house bill to the same effect now pending in the house.

## Born To Beauty

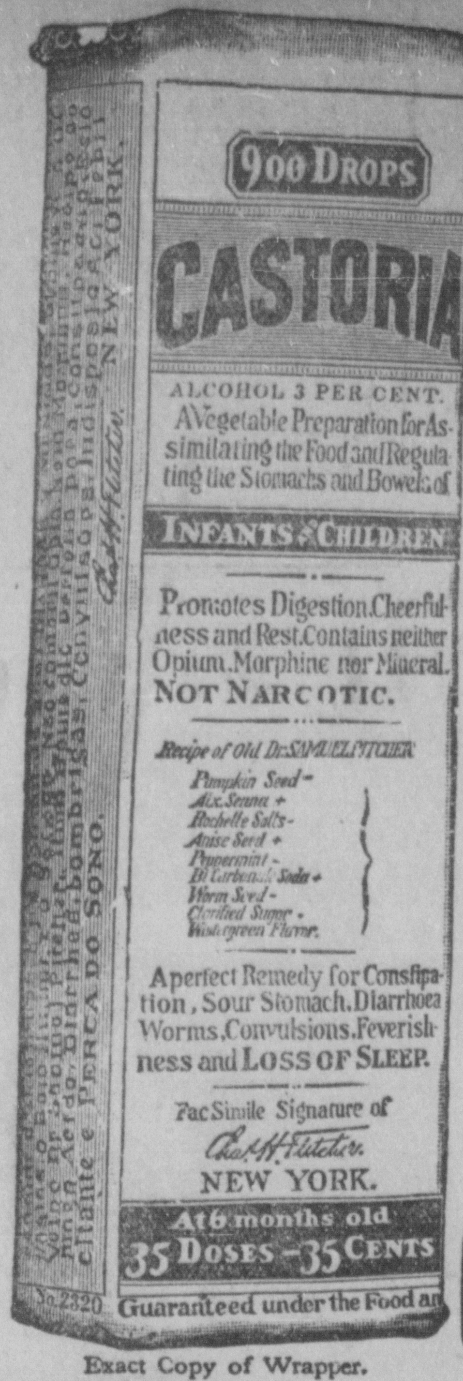

To be beautiful is woman's birthright. She can remain so if nature is assisted with the right toilet adjuncts.

## Carry the Case to High Powers of Nation

(Continued from Page One.)

Mrs. Harriet Taylor Upton of Warren, in charge of the Ohio division of the parade, declared that crowds of "youngish men" surged in so close that the marchers could hardly walk two abreast; that "good-natured drunken men" pushed against the marchers' lines without restraint by the police, and that the few officers in sight did not go to protect the procession.

## BUSINESS HOURS OF THE PRESIDENT ARE ESTABLISHED

Washington, March 7.—President Wilson's third day at the White House indicates that there is to be a change in the hours of doing business in the executive offices. Mr. Wilson arrived at his desk at 9, and that is the hour at which he expects to start his business day. This is earlier than either President Taft or Mr. Roosevelt arrived at the executive offices. He will "knock off" at 4 p. m. It is understood also that President Wilson will attempt to adhere as closely as possible to his customary schedule of retiring between 10:30 and 11 at night.

## Take Care In Roasting

and we'll take care that your roast is of the best home-cut meat. The result will be satisfactory to everybody who partakes of the luscious dish. We will provide you with the proper meats if you will do your part by preparing them properly for the table. Give us a trial.
